Notice for the customers: the following information is only applicable to equipment sold in the countries applying EU directives

The manufacturer of this product is Sony Corporation, 1-7-1 Konan Minato-ku Tokyo, 108-0075 Japan. The Authorized Representative for EMC and product safety is Sony Deutschland GmbH, Hedelfinger Strasse 61, 70327 Stuttgart, Germany. For any service or guarantee matters please refer to the addresses given in separate service or guarantee documents.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Let's try out your new IC recorder

1. Power on.

① Insert a battery with the correct polarity.

② Turn the power on. Slide and hold the HOLD-POWER switch in the direction of "POWER" until the window display appears. The "Accessing..." animation is displayed, and the IC recorder is turned on.

To turn the power off, slide and hold the HOLD-POWER switch in the direction of "POWER" until "Power Off" animation is displayed.

To prevent unintentional operations (HOLD)

To release the IC recorder from the HOLD status, slide the HOLD-POWER switch towards the center.

2. Set the date and time.

When you insert a battery for the first time, the "Set Date&Time" animation appears, and then the year section begins to flash.

① Press ▲ or ▼ to set the year (the last two digits of the year), and then press ►/ENT. Repeat this procedure to set month, day, hour, and minute in sequence. When you set the minute and press ►/ENT, the clock reflects the setting.

3. Select the menu language.

① Press MENU/NOISE CUT.

② Press ◀◀, press ▲ or ▼ to select , and then press ►/ENT.

③ Press ▲ or ▼ to select "Language," and then press ►/ENT.

④ Press ▲ or ▼ to select the language that you want to use in the display window, and then press ►/ENT.

You can select the following languages: Deutsch (German), English, Español (Spanish), Français (French), Italiano (Italian), Русский (Russian)

⑤ Press ■STOP.

4. Record.

Before you start using the IC recorder, make sure that you slide the HOLD-POWER switch towards the center to release the HOLD status.

① Press ●REC/PAUSE.

Recording starts and the operation indicator lights in red.

You can pause recording by pressing ●REC/PAUSE. Press ●REC/PAUSE again to restart recording.

② Press ■STOP to stop recording.

Recording stops and the operation indicator flashes in orange.

5. Listen.

① Press ►/ENT.

Playback starts and the operation indicator lights in green.

② Adjust the volume by pressing VOL -/+.

③ Press ■STOP to stop playback.

6. Erase.

Once a file is erased, you cannot restore it.

① Press ERASE.

"Erase?" is displayed and the file to be erased is played back for confirmation.

② Select "Execute" using ▲ or ▼, and then press ►/ENT.

The "Erasing..." animation is displayed while the selected file is being erased.

What to do next

Congratulations! You have set up your IC recorder and enjoyed your first recording. Let's step up to the next stage. There are some more useful functions and information that you can use to fully utilize your IC recorder.

Selecting a tab/folder/file

You can select a tab and a folder in which you are going to record a file. You can also specify the file to be played back or erased in the selected folder.

① Select a tab.

1. Press  to display the folder selection window.

2. Press ◀◀ and press ▲ or ▼ to select a tab, and then press ►/ENT.

The folder selection window of the selected tab is displayed.

(Voice): Recordable area to be used to manage files recorded with the IC recorder.

(Music): Playback-only area to be used to manage music files transferred from your computer.

(Podcast): Playback-only area to be used to manage podcast files transferred from your computer.

② Select a folder.

Press ▲ or ▼ to select a folder, and then press ►/ENT. To display the files contained in the selected folder, press ►►.

③ Select a file.

When the file selection window is displayed, press ▲ or ▼ to select the desired file, and then press ►/ENT.

When the stop mode window is displayed, you can switch files by pressing ◀◀ and ►►.

Copying the operating instructions to your computer

On Windows: Click [My Computer] or [Computer] - [IC RECORDER] - [Instructions].
On Macintosh: Click [IC RECORDER] on the finder - [Instructions].

The operating instructions explaining all the features and functions of the IC recorder are stored as PDF files in the built-in memory of the IC recorder.

You can also download the operating instructions from the Sony support home page: <http://support.sony-europe.com/DNA>

① Connect the IC recorder to your computer.

② Open the "Instructions" folder on your computer.

③ Drag and drop the files of the operating instructions from the "Instructions" folder to the local disk on your computer.

The file names of the operating instructions are as follows: Product name_language name_version.pdf (e.g. ICD-UX502_English_111.pdf)

④ Disconnect the IC recorder from your computer.

To read the operating instructions, double-click the PDF file you want to read.

More advanced features

For details on each operation, refer to the PDF operating instructions copied to your computer.

Scene selection

You can select the menu items for recording to the most appropriate settings according to various recording scenes.

NOISE CUT

Reduces ambient noise to make the playback sound clearer.

T-MARK

Adds a track mark to set the starting point when recording or playing back a file.

DPC(SPEED CTRL)

Adjusts the playback speed.

MENU

Sets various menu items, such as REC Mode, Mic Sensitivity, etc.

Sound Organizer (PC application software*)

Various operations can be performed using Sound Organizer on your computer. You can import files recorded with the IC recorder into Sound Organizer to edit. You can import music files of a music CD or podcast files to transfer to the IC recorder. You can also burn CDs of the music you like.

* Not supplied/for Windows only

You can download the Sound Organizer from the Sony support home page: <http://support.sony-europe.com/DNA>

Precautions

On power

Operate the unit only on 1.5 V or 1.2 V DC. Use an LR03 (size AAA) alkaline battery or an NH-AAA rechargeable battery.

On safety

Do not operate the unit while driving, cycling or operating any motorized vehicle.

On handling

Do not leave the unit in a location near heat sources, or in a place subject to direct sunlight, excessive dust or mechanical shock.

Should any solid object or liquid fall into the unit, remove the battery and have the unit checked by qualified personnel before operating it any further.

If you have any questions or problems concerning your unit, please consult your nearest Sony dealer.
